Notice of Termination of Application on Google Play Store

Thank you for your continued trust in IMV Corporation, and for the commitment you place in our products and solutions.

We inform you about the termination of application publication on Google Play for Card Vibro Air2 (model: VM-2012/VM-2012C). This is because of a new revision of the application distribution policy on Google Play, and our applications will not be able to follow the policy due to its old design. After our careful consideration, we have come to the conclusion that we have no choice but to discontinue the release of them. We apologize for any inconvenience this may cause and appreciate your understanding.

- Discontinued applications on the Google Play

- Card Vibro Air2
- Card Vibro Air2 Light

- Scheduled end date

- August 31, 2026

- (*There is a possibility that the end date may be extended, and we will contact you separately when the extension is confirmed.)

- Precautions and requests

- If you delete the app from your tablet PC after the release ends, you will not be able to reinstall it. Please always consider using your tablet PC in an offline environment. In the future, we cannot rule out the possibility that the app will not be available due to the OS or security update. Also, please consider purchasing as many tablet PCs as you will need in the future and installing the app before the end of the release.

Best regards
